Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This office action is in response to applicants' communication filed in paper # 8, on 5/29/03.

Claims 1-40 are pending in this application.

Applicants' election of Group I, claims 1-19, is acknowledged herewith. Applicants argue that invention of group II should be included with group I, as it does not place an undue burden on the PTO. This is not found persuasive. As pointed out that invention of group II, is drawn to combinatorial library, classified in class 435, as against group I, classified in class 564. A reference anticipating compound of Group I, may not render the library of group II obvious under 35 USC 103, and hence the **restriction requirement is deemed proper and is made FINAL. Claims 20-40 stand withdrawn being drawn to the non elected invention.**

Applicants' election of single disclosed species is acknowledged and all the compounds related to the species will be examined.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

This claim is drawn to the composition, but fails to characterize the kind of the composition, thus rendering the claim indefinite. Also acceptable excipient is indefinite, in the absence of characterization of the composition.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Heath et al(US 3,869,499)

Heath et al, column 4, lines 43-49, anticipates instant claim, especially when, in the instant claims, Ar and Ar' are phenyl, Z is hydrogen, X is O, and T is O.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by JP 53092722.

JP'722, title compound(also see English abstract), anticipates instant claim, when, Ar and Ar' are phenyl, T is NH, X is O and Z is H.

The species has been found to be free of prior art.

6. Claims 4-18 are objected to as being dependent upon a rejected base claim, but would be allowable to the extent they read on the elected species, if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
